SECRET 062313Z CITE [] 0016

PRIORITY []

REFERENCE: [] 467

REQUEST VERIFICATION OF D VALUE OF MINUS 1000 FEET FOR PORTION
OF MISSION 67T038 OVER [] AT END OF FLIGHT. IS ASSUMPTION
CORRECT THAT ACTUAL ALTITUDE IS EQUAL TO THE BAROMETRIC ALTITUDE
WITH THE ALGEBRAIC ADDITION OF THE D VALUE. IF THE ALTITUDE
IN THE SC&DM TAPE IS CORRECT MENSURAL ANALYSIS INDICATES THAT A
VALUE OF PLUS 1000 FEET WOULD ALMOST ELIMINATE SCALE ERRORS.
EQUIVALENT FOCAL LENGTH OF THE UNIT AND ALTITUDE OF [] ABOVE 25X1
SEA LEVEL HAVE BEEN EMPLOYED.
